WORK EXPERIENCE

Delta India (+2 Years) Software Engineer

Feb 2022 - present

PROJECTS

My Business App: Scan and send documents such as bills, bank statements, deposit slips, etc.

- Worked on the backend Node.js, Express AWS S3, and EC2. Uploading images in the S3 bucket and creating merge and single pdf.
- Implemented security measures and data protection protocols, ensuring compliance with industry standards and preventing data breaches.

Ultrabook (stealth mode): Ultrabook CRM, is a cloud-based customer relationship management software for managing sales, marketing, and customer support in a single system.

- Collaborated with stakeholders to define and implement a technology roadmap, aligning engineering initiatives with company-wide goals and resulting in a 50% increase in team efficiency and project success rate.
- Implement chart of account and setup link of all module such general entities, transactions, invoice and bills.

SchedAssist: The scheduling system provides an easy-to-create appointment creation Experience to book schedules easily and faster.

- Optimized a RESTful API for a healthcare application, reducing response times by 50% and improving overall system performance by 30%.
- Integrating Stripe payment gateway. Adding a new feature, a 15-day free trial per the client's needs.

Side Projects:

sheet-to-db (npm package): Read and edit your spreadsheet with GET, POST, PUT, and DELETE requests with just a few lines of code.

Portfolio (FPP) First: First-Person perspective with a 3D environment. To explore the site, you need to use pc.
